

AntiEtch® NextGen, is a UV-cured, proprietary technology that now offers a lifetime warranty against etches & stains

Stone & Marble Protection that Lasts a Lifetime

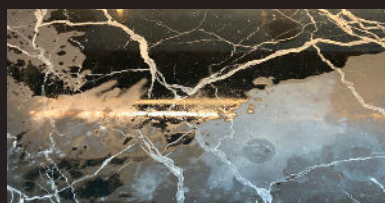

America's most trusted marble & stone protector, MORE® AntiEtch®, just got a powerful upgrade with NextGen! Our proprietary technology that stops etches and stains from destroying acid-sensitive surfaces, now comes with a lifetime warranty.

AntiEtch® provides permanent protection for surfaces like marble, onyx, limestone, travertine, and dolomite by preventing even the toughest stains and caustic solutions from coming in contact with the stone.

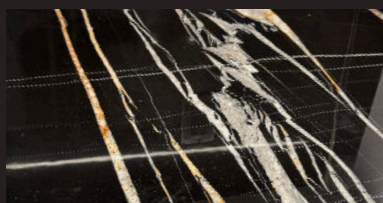

With AntiEtch®, your clients can enjoy their marble and other stone surfaces with confidence that is backed by a complimentary lifetime warranty.

Key Features & Benefits

- Stops etches and stains on marble, onyx, limestone, travertine, dolomite, and concrete
- Crystal-clear finish available in honed, satin, and polished
- Eco-friendly and safe for food-contact surfaces
- Enhanced UV durability for indoor areas exposed to sunlight
- Easy to maintain and will not crack or peel over time
- Contains zero VOCs, ensuring a safe and clean application
- Zero porosity, so germs and bacteria have nowhere to grow

Untreated Marble

AntiEtch®-Treated Marble
